Rep. Ellen Tauscher to Receive United States  
Marine Corps Semper Fidelis Award

Strategic  
Forces Chairman Honored for her Commitment to the Corps

Washington, DC - On the evening of Saturday, June 7, 2008, Rep. Ellen Tauscher will be the recipient of the Marine Corps Semper Fidelis Award at the Twenty Second Annual Marine Corps Scholarship Gala.

Each year, the Marine Corps Scholarship fund (MCSF) presents the Semper Fidelis award to deserving individuals who have supported the endeavors of the MCSF and helped further educational opportunities for the families of those serving in the United States Marine Corps. The award recognizes individuals who have exhibited the highest traditions of the Marine Corps in their personal and professional endeavors.

"This honor is truly humbling. The men and women of our Armed Services and their families sacrifice so much so that we can live in freedom and free from fear. In Congress I have tried to honor their sacrifice by improving the quality of life for these men and women and their families by ensuring that during their service, and forever after, they have access to every single opportunity and benefit that this nation can provide. Many thanks to the Marine Corps Scholarship Fund not only for this award but for their undying commitment to the Corps and our country," said Rep. Ellen Tauscher.

Since its inception in 1962, MCSF has awarded at least \$34.6 million in financial assistance for education and is committed to awarding an additional \$4.3 million for the upcoming

academic year. The mission of the MCSF has remained clear and focused for over 46 years: Honoring Marines by educating their children
